Updated data successfully alert

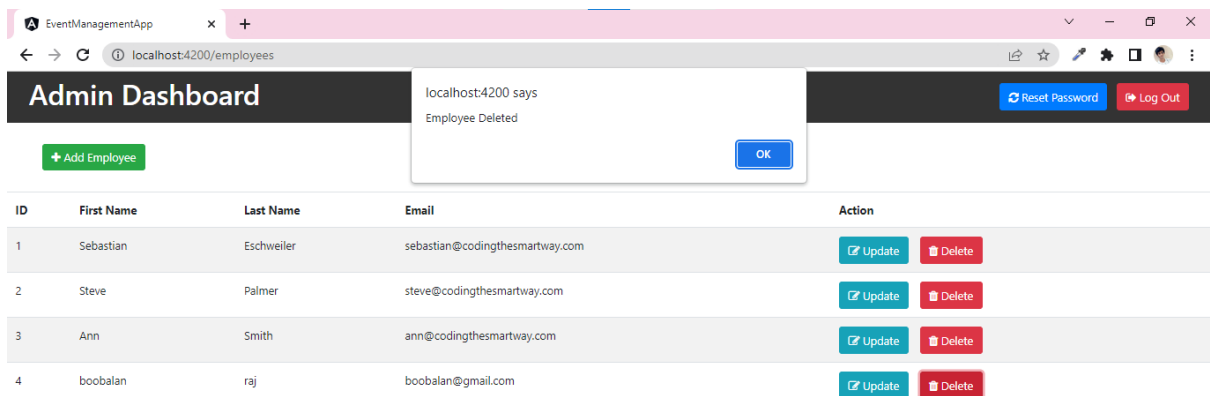

Event Management App (Screenshots)

The screenshot shows the Admin Dashboard of the Event Management App. The dashboard has a dark header with the title "Admin Dashboard" and two buttons: "Reset Password" and "Log Out". Below the header is a green button labeled "+ Add Employee". The main content area displays a table with four columns: ID, First Name, Last Name, and Email. There are four rows of employee data. Each row has an "Action" column with "Update" and "Delete" buttons.

ID	First Name	Last Name	Email	Action
1	Sebastian	Eschweiler	sebastian@codingthesmartway.com	Update Delete
2	Steve	Palmer	steve@codingthesmartway.com	Update Delete
3	Ann	Smith	ann@codingthesmartway.com	Update Delete
4	boobalan	raj	boobalan@gmail.com	Update Delete

After updating employee data

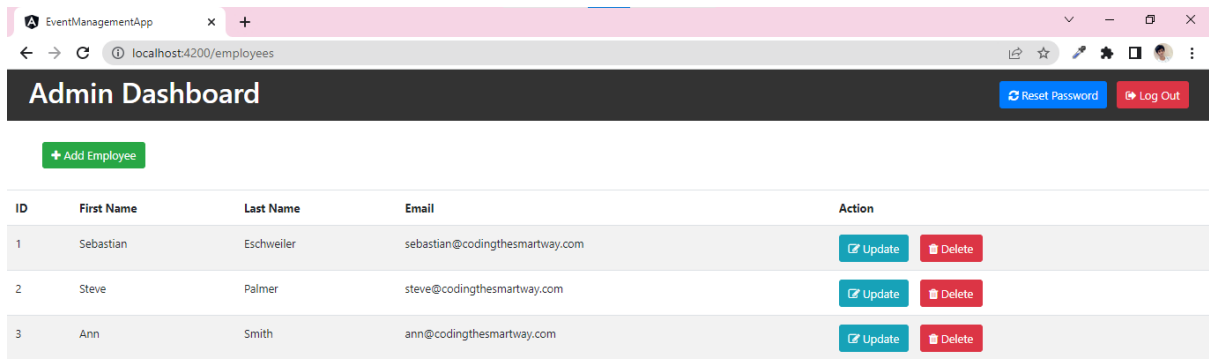

The screenshot shows the Admin Dashboard after an employee has been deleted. A modal dialog box is displayed in the center, showing the message "localhost:4200 says Employee Deleted" and an "OK" button. The table below the modal still shows the same four employees, but the "Delete" button for the first employee (Sebastian) is now disabled.

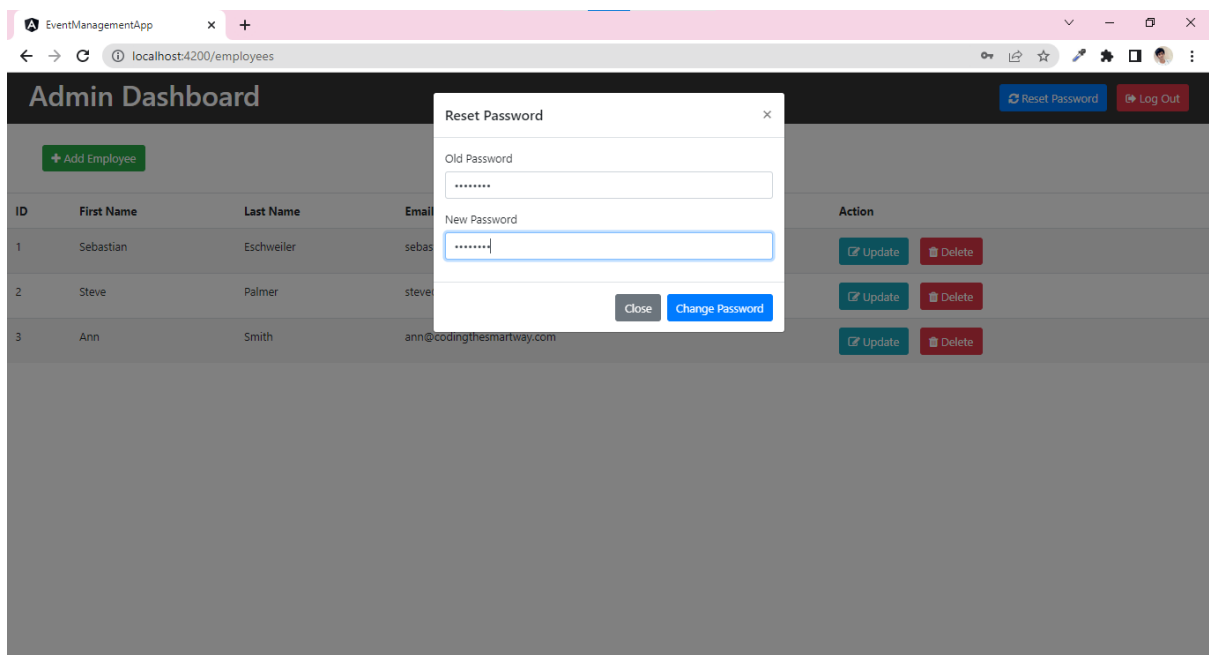

ID	First Name	Last Name	Email	Action
1	Sebastian	Eschweiler	sebastian@codingthesmartway.com	Update Delete
2	Steve	Palmer	steve@codingthesmartway.com	Update Delete
3	Ann	Smith	ann@codingthesmartway.com	Update Delete
4	boobalan	raj	boobalan@gmail.com	Update Delete
